

Room 211

4.00pm, Wednesday 8 May – 4.00pm, Thursday 9 May

*Note: This program is open to all full registered delegates or can be purchased as a stand-alone registration type at www.ozwater.org

WEDNESDAY 8 MAY

- 3.15pm** **Registration Open**
Afternoon Tea in the Exhibition Hall
- 4.00pm** **SESSION 1**
Workshop: Wellbeing & Mental Health
- 5.30pm** **Workshop Concludes, At Leisure**
- 6.30pm** **Ozwater'19 Gala Dinner & Australian Water Awards**
Including announcement of the Water Industry Safety Excellence Award winner (refer page 27 for the finalists list)
* Ticket required

THURSDAY 9 MAY

- 9.00am** **SESSION 2**
Ozwater'19 Keynote Speakers including:
Prof. Sidney Dekker, The Case for Doing Safety Differently
'Safety differently,' an approach embraced by multiple top tier organisations globally, is about halting or pushing back on the ever-expanding bureaucratisation and compliance of work. It sees people not as a problem to control, but as a resource to harness. Safety Differently defers to expertise by avoiding always telling people what to do, instead asking them what they need to be successful. It turns safety back into an ethical responsibility for people, assets and communities, instead of a bureaucratic accountability to managers, boards and regulators.
- 10.30am** **Morning Tea in the Exhibition Hall**
- 11.15am** **SESSION 3**
Exclusive Workshop with Prof. Sidney Dekker: Doing Safety Differently
Prof. Sidney Dekker will invite leaders, practitioners, contractors, regulators, safety professionals, engineers and others to reflect on some of the practical implications of doing safety differently. The workshop will cover a number of issues and questions including how to:
 - Step away from a reliance on bureaucratic processes that constrain people as if they were a problem to control, and explore ways to declutter, devolve and decentralise the embrace of responsibility for safe operations.
 - Not just stop things from going wrong, but to identify and enhance the capacities that make things go right.
 - Be intensely curious about work, rather than just safety, and to understand the organisational obstacles and constraints that make work difficult, yet also the human capacities and resilience that make work mostly successful.
 - Hunt down anything that puts downward pressure on honesty, openness and learning and develop genuine learning conversations, learning teams and learning reviews.
- 12.45pm** **Lunch in the Exhibition Hall**
- 1.45pm** **SESSION 4**
Safety Transformations, Collaborations & Improvements in the Water Sector (Selected from Call for Papers)
 - 1.45pm** **Personal Safety Moment**
 - 1.50pm** **Interflow's Safety Culture Transformation - The H2O Vision**
Adrian Smith, Interflow
 - 2.15pm** **Collaborating for a Safe Work Environment - How South East Water is Working with Urban Utilities in Creating a Safer Working Environment**
Kashif Azhar and John Hribar South East Water
 - 2.40pm** **Augmented Reality - Improving the Safety, Efficiency and Effectiveness of Training Delivery**
Penny Griffiths IXOM
 - 3.05pm** **Improving Operator Safety Through Innovative Product Design**
Adrian Blinman, TRILITY Group
- 3.15pm** **Closing Networking Drinks**

PROGRAM COST: Member: **\$660.00** / Non Member: **\$850.00**
